Larry Keeton, Director

March 26, 2009

### **Self Certification Process Change**

As of April 15<sup>th</sup> 2009 we will implement a new process for the self certification of insulation and wallboard inspections.

During the plan review process the plans examiner will identify if the project meets the requirements to participate in the self certification of Insulation, Wallboard or other inspections. If the project meets the criteria for self certification the forms will be given to the applicant at the time of permit issuance.

If you have questions regarding the new process or your permit has already been issued and you would like to know if your project qualifies for the self certification program, please call 360-337-5777 and ask to speak to a building plans examiner.
